

On-Campus Blackboard

Surveys: Download Results and Import to Excel

Survey results can be automatically separated into columns by comma if they are imported into Excel in a specific way. In the Full Grade Center, at the top of the survey column, click on the arrow to the right of the title and **select Download Results** from the options menu.

		Cancel Click to download results

The resulting file will be titled download, and can be found on your computer in Downloads. This file shown was downloaded six times.

5	download (6)	^

If you double click to open it, the data may not be separated into columns by comma.

The next steps will demonstrate how to import the data as separated into separate columns by comma.

Open a New spreadsheet in Excel and select the Data tab, then select Get External Data, From Text

Select the file from Downloads or where you saved the downloaded results on your computer. Shown here is the file having been opened with Excel and saved again as a CSV file with a new name, example_survey_SP19.
